10	Provision for keeping Rs. 50,000/- in cash for Informer reward scheme from funds approved under ROP 2019-20	State Health Society) (Delhi) approved the proposal of maintaining cash of Rs. 50,000/- in the RCH Accounts Section for the activity. It has also been directed that Accounts Section may book the amount as expenditure if money is lost, However, in case currency notes (evidence money) become property of court, they may be booked as advance and should be adjusted when received back after court orders.
----	-------------------------------------------------------------------------------------------------------------	-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

SPO RCH has requested for action to be recorded as *“The money if lost may be treated as loss to exchequer and proceedings for writing off of the amount be initiated and approval from the competent authority may be taken for writing off the amount.”*

Further, SPO PNDD has informed that usually, it takes some time to plan the decoy operation after information is received. So, rather than maintaining cash, prior information (upto 3 working days before the raid) may be given to Finance Section of DSHM to arrange cash for the operation.

With reference to observation of SPO (RCH), it was directed that since this scheme is already in place in Haryana & Rajasthan and also similar decoy operations are being conducted by other departments of Delhi Government, the practice followed by these organizations may be explored and decision taken accordingly by Dy Director (Finance). However, approval for maintaining the cash as per decision taken in meeting of Governing Body of SHS (D) held on 19.11.2019 was upheld.
