Regarding Sterilization failure case of Ms Vimal Devi W/o Ram .

A failure c/o Vimal Devi w/o Ram Avtar was reported from ASBGH. She underwent Minilap with MTP on 17.6.2022 done by Dr Garima Deo, SR. The client became pregnant and UPT was found positive on 27.3.2023 , USG done on 5.4.2023 showing SLIUP of 8 weeks. Histopath report of original surgery is not available as the claimant denied for it. Client opted to continue pregnancy.

As per DISC Comments :- As per the records and the Minutes of Meeting of quality circle of hospital. Since the client is continuing this pregnancy and has not opted for ligation cause of failure cannot be ascertained.

The DISC further recommended that all the cases undergoing minilap/ligation with c/s or any other surgeries must have histopath copy of the fallopian tubes done ideally. The OT notes also mention details of sutures used, loop length and distance from cornu.

All the document verified by DISC team and forwarded to SISC compensation.

The Meeting ended with the vote of thanks.

Dr. Anjali Dosajh
